## **Comtech Telecommunications Corp. Receives \$1.2 Million Order for Satellite Modems to Support Cellular Backhaul in Africa**

MELVILLE, N.Y., Nov 10, 2009 (GlobeNewswire via COMTEX News Network) -- Comtech Telecommunications Corp. (Nasdaq:CMTL) announced today that its Tempe, Arizona-based subsidiary, Comtech EF Data Corp., received a \$1.2 million order for satellite modems. A mobile operator will deploy the modems to support satellite-based cellular backhaul in Africa.

The order specified the CDM-625 Advanced Satellite Modem, which is ideal for cellular backhaul applications in regions where satellite bandwidth constraints exist. The CDM-625 Advanced Satellite Modem combines revolutionary technologies, including DoubleTalk® Carrier-in-Carrier® bandwidth compression, Low Density Parity Check codes and the next-generation forward error correction, VersaFEC® with Adaptive Coding & Modulation. The CDM-625's advanced technologies facilitate maximum bandwidth efficiencies.

"By utilizing Comtech's bandwidth-efficient technologies, operators can maximize satellite throughput without using additional transponder resources," said Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp.

Comtech EF Data Corp. manufactures a broad spectrum of satellite communications products, including Satellite Modems, Bandwidth & Capacity Management, TCP/IP Performance Enhancement Proxies, Encapsulators, Receivers, Converters, Amplifiers, Transceivers and Terminals. All products meet or exceed the standards published by worldwide and regional satellite networks. Please visit [www.comtechefdata.com](http://www.comtechefdata.com) for more information.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company believes many of its solutions play a vital role in providing or enhancing communication capabilities when terrestrial communications infrastructure is unavailable, inefficient or too expensive. The Company conducts business through three complementary segments: telecommunications transmission, mobile data communications and RF microwave amplifiers. The Company sells products to a diverse customer base in the global commercial and government communications markets. The Company believes it is a market leader in the market segments that it serves.

Certain information in this press release contains statements that are forward-looking in nature and involve certain significant risks and uncertainties. Actual results could differ materially from such forward-looking information. The Company's Securities and Exchange Commission filings identify many such risks and uncertainties. Any forward-looking information in this press release is qualified in its entirety by the risks and uncertainties described in such Securities and Exchange Commission filings.
