Cautionary Statement Regarding Forward-Looking Statements

Certain information in this presentation contains forward-looking statements, including, but not limited to, information relating to Comtech’s future performance and financial condition, potential transactions, plans and objectives of Comtech’s management and Comtech's assumptions regarding such future performance, financial condition and plans and objectives that involve certain significant known and unknown risks and uncertainties and other factors not under Comtech's control which may cause its actual results, future performance and financial condition, and achievement of plans and objectives of Comtech's management to be materially different from the results, performance or other expectations implied by these forward-looking statements. Words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “estimates,” variations of such words and similar expressions are intended to identify such forward-looking statements, which generally are not historical in nature. Forward-looking statements could be affected by factors including, without limitation: the risk that the acquisition of UHP Networks Inc. and its sister company (together, “UHP”) may not be consummated for reasons including that the conditions precedent to the completion of this acquisition may not be satisfied or the occurrence of any event, change or circumstance could give rise to the termination of the agreement; the risk that the regulatory approval related to UHP will not be obtained; the possibility that the expected synergies from recent or pending acquisitions will not be fully realized, or will not be realized within the anticipated time periods; the risk that acquired businesses and any pending acquisitions will not be integrated with Comtech successfully; the possibility of disruption from recent or pending acquisitions, making it more difficult to maintain business and operational relationships or retain key personnel; the risk that Comtech will be unsuccessful in implementing a tactical shift in its Government Solutions segment away from bidding on large commodity service contracts and toward pursuing contracts for its niche products with higher margins; the nature and timing of receipt of, and Comtech’s performance on, new or existing orders that can cause significant fluctuations in net sales and operating results; the timing and funding of government contracts; adjustments to gross profits on long-term contracts; risks associated with international sales; rapid technological change; evolving industry standards; new product announcements and enhancements, including the risks associated with expanding sales of Comtech's Heights™ Network Platform (“Heights”); changing customer demands and or procurement strategies; changes in prevailing economic and political conditions; changes in the price of oil in global markets; changes in foreign currency exchange rates; risks associated with legal proceedings, customer claims for indemnification and other similar matters; risks associated with Comtech's obligations under its Credit Facility; risks associated with large contracts; risks associated with the COVID-19 pandemic; and other factors described in this and Comtech's other filings with the SEC. Comtech does not undertake any duty to update any forward-looking statements contained herein.
Use of Non-GAAP Financial Measures

In order to provide investors with additional information regarding the Company's financial results, this presentation contains "Non-GAAP financial measures" under the rules of the SEC. The Company’s Adjusted EBITDA is a Non-GAAP measure that represents earnings (loss) before income taxes, interest (income) and other, write-off of deferred financing costs, interest expense, amortization of stock-based compensation, amortization of intangible assets, depreciation expense, estimated contract settlement costs, settlement of intellectual property litigation, acquisition plan expenses, facility exit costs and strategic alternatives analysis expenses and other. The Company's definition of Adjusted EBITDA may differ from the definition of EBITDA or Adjusted EBITDA used by other companies and therefore may not be comparable to similarly titled measures used by other companies. Adjusted EBITDA is also a measure frequently requested by the Company's investors and analysts. The Company believes that investors and analysts may use Adjusted EBITDA, along with other information contained in its SEC filings, in assessing the Company's performance and comparability of its results with other companies.

The Company's Non-GAAP financial measures for consolidated operating income, net income and net income per diluted share reflect the GAAP measures as reported, adjusted for certain items as described in Appendix II. These Non-GAAP financial measures have limitations as an analytical tool as they exclude the financial impact of transactions necessary to conduct the Company's business, such as the granting of equity compensation awards, and are not intended to be an alternative to financial measures prepared in accordance with GAAP. These measures are adjusted as described in the reconciliation of GAAP to Non-GAAP in Appendix II, but these adjustments should not be construed as an inference that all of these adjustments or costs are unusual, infrequent or non-recurring. Non-GAAP financial measures should be considered in addition to, and not as a substitute for or superior to, financial measures determined in accordance with GAAP. Investors are advised to carefully review the GAAP financial results that are disclosed in the Company’s SEC filings.

The Company has not quantitatively reconciled its fiscal 2021 Adjusted EBITDA target to the most directly comparable GAAP measure because items such as stock-based compensation, adjustments to the provision for income taxes, amortization of intangibles and interest expense, which are specific items that impact these measures, have not yet occurred, are out of the Company's control, or cannot be predicted. For example, quantification of stock-based compensation expense requires inputs such as the number of shares granted and market price that are not currently ascertainable. Accordingly, reconciliations to the Non-GAAP forward looking metrics are not available without unreasonable effort and such unavailable reconciling items could significantly impact the Company's financial results.
We are a market leader in the growing secure wireless communications market
- Satellite Ground Station Technologies
- Public Safety and Location Technologies
- Mission-Critical Technologies
- High-Performance Transmission Technologies

We are known for solving complex problems

We have generated profits and cash flows and paid dividends 42 quarters in a row and in September 2020 announced a new $100.0 million share repurchase program

We have strong visibility into future revenue

We believe our long-term fundamentals remain strong and we are well-positioned for growth

Notes
See Appendix II of this presentation for the reconciliation from US GAAP to Adjusted EBITDA, which is a Non-GAAP financial measure.
Comtech – Impact of COVID-19

- Despite the second wave of the COVID-19 pandemic, fiscal 2021 is off to a good start, as our net sales and Adjusted EBITDA exceeded our expectations.

- COVID-19 is still impacting our business and we are seeing increased spikes of COVID-19 in almost all of the geographic areas in which we operate.

- Since March 2020, we have conducted most of our non-production related operations using remote working arrangements, curtailed most business travel, and have established social distancing safeguards. These precautions and business practices are expected to remain in effect so long as government advisories recommend.

- Additionally, we have experienced order delays, production delays, minor supply chain disruptions, lower levels of factory utilization and higher logistics and operational costs.

- Although the COVID-19 pandemic is by no means over and additional waves of COVID-19 could again alter the business landscape, we believe that the pandemic’s worst impact on our business is largely behind us.

- As the vaccine for COVID-19 becomes widely available, we believe that business conditions will improve.

- Our long-term fundamentals remain strong as we continue to believe we are well-positioned for growth as business conditions meaningfully improve.
Overview of Q1 FY21 Performance

- Q1 FY 2021 Revenue was $135.2 million
- GAAP Operating Loss of ($85.7) million includes:
  - acquisition plan expenses of $91.2 million,
  - amortization of $5.6 million,
  - depreciation of $2.6 million, and
  - stock-based compensation of $0.7 million
- Adjusted EBITDA\(^{(1)}\) (non-GAAP) of $14.3 million or 10.6% of net sales
- GAAP diluted net loss per share of $3.39
- Non-GAAP diluted EPS\(^{(2)}\) of $0.15

Notes:
\(^{(1)}\) Adjusted EBITDA represents earnings (loss) before income taxes, interest (income) and other, write-off of deferred financing costs, interest expense, amortization of stock-based compensation, amortization of intangibles, depreciation expense, estimated contract settlement costs, settlement of intellectual property litigation, acquisition plan expenses, facility exit costs and strategic alternatives analysis expenses and other.
\(^{(2)}\) See Appendix II of this presentation for the reconciliation of GAAP earnings per diluted share to Non-GAAP earnings per diluted share.
Comtech Has Transformed Itself into a Wireless Leader

Approximately $400M or 64% of our FY 2020 revenues did not exist in FY 2015

2015:
- Comtech awarded multi-million dollar award for solid-state power amplifiers for in-flight entertainment and communications (IFEC) applications.

2016:
- Comtech awarded $45.0M contract to provide statewide Next Generation 911 IP Network and announces the availability of Heights Networking Platform Release 2.4.

2018:
- Comtech awarded $134.0M contract to provide 911 public safety and location technologies to a U.S. Wireless Carrier and $59.0M strategic IDIQ contract from U.S. Navy for next generation satellite ground station equipment.
- Comtech receives 3-year $123.6M contract award to provide sustainment services for U.S. Army’s SNAP terminals (VSAT).

2019:
- Comtech wins a 5-year $100.0M contract to develop a NG 911 system.
- Comtech wins $211.0M contract to supply equipment in support of U.S. Marine Corps Next Generation Troposcatter Systems.

2020:
- Comtech wins statewide contract valued at up to $54.0M to design, deploy, and operate NG 911 services for the State of South Carolina.
- Comtech wins statewide contract valued at up to $175.1M to design, deploy, and operate NG 911 services for the Commonwealth of Pennsylvania.

2021:
- Comtech wins statewide contract valued at up to $175.1M to design, deploy, and operate NG 911 services for the Commonwealth of Pennsylvania.

2014 - 2015:
- Comtech explored strategic alternatives to enhance shareholder value but decided to remain independent. Shortly after, Fred Kornberg (current CEO) was named Executive Chairman with Mike Porcelain remaining as CFO.

2016:
- Comtech announces the acquisition of TeleCommunication Systems, Inc. for $423.6M.
- Michael Porcelain promoted to COO and Michael Bondi promoted to CFO.

2018:
- Comtech announces the acquisition of Solacom Technologies, Inc. (911 solutions).

2019:
- Comtech announces the acquisition of Next Generation 911 Business from General Dynamics.

2020:
- Comtech announces the acquisitions of CGC Technology Limited and NG-911 Inc.

2021:
- Comtech announces the acquisitions of CGC Technology Limited and NG-911 Inc.

- Continued investments in R&D and marketing to support long-term growth
Comtech Participates in Growing Markets

Comtech is Well Positioned to Take Advantage of Key Marketplace Trends

Satellite Cellular Backhaul for 3G/4G and 5G

Ultimate transition to 5G will increase data usage, requiring greater satellite backhaul

We offer a complete set of cellular backhaul capabilities and can provide customers with end-to-end solutions

Military Communications Modernization

Increased threats of electronic warfare and demand for high-bandwidth battlefield communications

Comtech has strong relationships with military customers (including the U.S. Government)

Next-Generation 911 Upgrades

State and local governments must upgrade existing 911 call handling and next-generation systems

Comtech offers state of the art 911 call handling and NG-911 solutions, including precise location

Expected Growth in LEO / MEO / HTS & VHTS Satellite Constellations Will Require Significant Investment In Ground Infrastructure and Comtech Will Be Poised to Benefit
Comtech’s Two Segments Have Common Capabilities

We leverage several key competencies, including R&D and engineering, across both segments to deliver superior capabilities to customers.

**Comments on FY 2021 Targets**

- We expect Commercial Solutions segment net sales to be slightly higher, and Government Solutions segment net sales to be similar or slightly higher, than the level we achieved in fiscal 2020.
- We expect ongoing higher production, logistic and safety-related costs resulting from COVID-19.
- We set an initial gross margin percentage target of 35%.
- Amortization of intangible assets is expected to approximate $21.1M.
- Amortization of stock-based compensation expense is expected to range from approximately $11.0M to $13.0M.
- Interest expense (including amortization of deferred financing costs) is expected to approximate $7.5M (including $1.2M of ‘ticking fees’ in Q1).
- Our effective income tax rate is expected to approximate 13.75%.
- Adjusted EBITDA margin is expected to approximate 12.0% when using the $620.0M midpoint of our 2021 targeted range for Net Sales and Adjusted EBITDA.
- We are expecting Q2 fiscal 2021 revenues to range from approximately $135.0M to $140.0M, with Adjusted EBITDA to range from approximately $12.5M to $14.5M.
- For the remaining quarters in fiscal 2021, we expect sequential growth, with Q4 targeted to be the peak.

**Notes**

<sup>(1)</sup> Adjusted EBITDA represents earnings (loss) before income taxes, interest (income) and other, write-off of deferred financing costs, interest expense, amortization of stock-based compensation, amortization of intangibles, depreciation expense, estimated contract settlement costs, settlement of intellectual property litigation, acquisition plan expenses, facility exit costs and strategic alternatives analysis expenses and other.

(2) See Appendix II of this presentation for the reconciliation of reported Net Income (Loss) to Adjusted EBITDA.
(3) Comtech’s fiscal year end is July 31.

2016: Fiscal 2016 impacted by TCS acquisition
2017: Excluding $18.8 million of favorable adjustments (described in our Form 10-K), operating income would have been 3.3% of net sales
2018: Includes $11.8 million, or $0.49 per diluted share, discrete tax benefit (“Tax Gain”) primarily due to Tax Reform
