Comtech Telecommunications Corp. Receives \$6.3 Million of Movement Tracking System Orders for Its Mobile Data Communications Transceivers and Ruggedized Computers

MELVILLE, N.Y., Dec 21, 2005 (BUSINESS WIRE) -- Comtech Telecommunications Corp. (NASDAQ:CMTL) announced today that its Maryland-based subsidiary, Comtech Mobile Datacom Corporation, recently received orders totaling \$6.3 million on its Movement Tracking System, or MTS contract, with the U.S. Army. Total orders received to date against the \$418.2 million U.S. Army logistics contract increased to \$234.3 million.

The orders are primarily for the supply of Comtech's next generation Model MT 2012 mobile satellite transceivers, which feature embedded Radio Frequency Identification (RFID) and secure Global Positioning System (GPS) capabilities, along with both ruggedized and control station computers. Comtech's Model 2012 Transceiver features Savi Technology's ISO-compliant EchoPoint RFID Reader, which Savi also has deployed in the U.S. Department of Defense's In-Transit Visibility (ITV) network.

Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp., said, "The continuing commitment of the U.S. Department of Defense to the MTS program is tangible evidence of the critical role our technology plays in meeting the communications requirements of today's U.S. Military."

Comtech Mobile Datacom Corporation, a Germantown, Maryland-based company, is engaged in the provision of satellite-based packet data communication systems and location and messaging services. To learn more about Comtech Mobile Datacom, please visit the company's website at www.comtechmobile.com.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company conducts its business through three complementary segments: telecommunications transmission, mobile data communications, and RF microwave amplifiers. The Company offers niche products, systems and services where it believes it has technological, engineering, systems design or other expertise that differentiate its product offerings.

Savi Technology is a leading provider of supply chain management and security solutions leveraging software and Automatic Identification and Data Collection (AIDC) technologies, including Radio Frequency Identification (RFID).
