

## Comtech Telecommunications Corp. Receives \$1.7 Million in Orders from Government Entity in Asia

October 14, 2020

MELVILLE, N.Y.--(BUSINESS WIRE)--Oct. 14, 2020-- October 14, 2020-- Comtech Telecommunications Corp. (NASDAQ: CMTL) announced today that its Tempe, Arizona-based subsidiary, Comtech EF Data Corp., which is part of Comtech's Commercial Solutions segment, received an aggregate of \$1.7 million in orders for Up and Down Frequency Converters and Low Noise Amplifiers ("LNAs") from a large government entity in Asia.

After a competitive request for proposal process and vendor evaluation, the government entity selected Comtech EF Data's Frequency Converters and LNAs to support a significant network upgrade. The Comtech equipment will replace a mix of vendors' installed equipment. The enhanced network infrastructure will support critical voice, data, and video applications, as well as inter-branch office communications.

Comtech EF Data has developed and manufactured an extensive line-up of Frequency Conversion and Amplifier solutions for over 25 years, with L-, C-, X-, Ku- and Ka-Band offerings. The indoor and outdoor products are field-proven, cost-effective and provide the reliability and performance needed to support fixed and mobile/transportable applications for commercial and government customers. The industry-leading Frequency Converters feature high gain and low phase noise performance along with a patented Daisy Chain Redundancy system that fits within minimum rack space.

"I am pleased that Comtech was selected to supply equipment for this government network," said Fred Kornberg, Chairman of the Board and Chief Executive Officer of Comtech Telecommunications Corp. "This customer's decision to exclusively utilize Comtech products is a testament to our demonstrated performance and quality."

Comtech EF Data Corp. is a leading supplier of communications equipment with a focus on satellite bandwidth efficiency and link optimization. The high-performance satellite communications ground equipment is deployed globally to support mission-critical and demanding applications for government, mobile backhaul, premium enterprise and mobility. Service providers, satellite operators, governments and commercial users wanting to optimize communications, increase throughput and delight customers, are leveraging the performance and flexibility of the Comtech brand. The solutions are facilitating fixed and mobile networks in 160+ countries and across every ocean. For more information, visit [www.comtechedata.com](http://www.comtechedata.com).

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company sells products to a diverse customer base in the global commercial and government communications markets.
