

Comtech Achieves Key ISO 9001:2015 Re-Certification for Location Technologies

October 15, 2020

MELVILLE, N.Y.--(BUSINESS WIRE)--Oct. 15, 2020-- October 15, 2020-- Comtech Telecommunications Corp. (NASDAQ: CMTL), a world leader in secure and highly reliable location, public safety, navigation, and communication technologies, announced today that its Location Technologies group, a division of Comtech's Commercial Solutions segment, has obtained re-certification of its ISO 9001:2015 designation. The ISO 9001 standard certification is used by organizations to demonstrate their ability to consistently provide products and services that meet customer and regulatory requirements and to exhibit continuous improvement.

The certification is a key indicator of Comtech's dedication to Quality Management Systems ("QMS"). The standard is based on a number of quality management principles including a strong customer focus, the motivation and implication of top management, the process approach and continual improvement. To meet ISO standards, a company must demonstrate that its processes are tailored to performance improvement organization-wide. The designation requires re-certification every three years to maintain ISO 9001 status.

"This ISO 9001 re-certification is a reflection of Comtech's commitment to continuous improvement and optimal efficiency," said Fred Kornberg, Chairman of the Board and Chief Executive Officer of Comtech Telecommunications Corp. "Successfully completing the rigorous certification process demonstrates Comtech's pledge to deliver consistent and effective services to our customers and internally improve operational results."

The Location Technologies group of Comtech Telecommunications Corp. is a leading provider of precise device location, mapping and messaging solutions for public safety, mobile network operators, and enterprise solutions.
