

Comtech Telecommunications Corp. Awarded \$2.1 Million of Funding for EEE Parts Management, Procurement and Engineering Services

August 26, 2021

MELVILLE, N.Y.--(BUSINESS WIRE)--Aug. 26, 2021-- August 26, 2021-- Comtech Telecommunications Corp. (NASDAQ: CMTL), a leading global provider of next-generation 911 emergency systems and secure wireless communications technologies, announced today, that during its fourth quarter of fiscal year 2021, it was awarded \$2.1 million of additional funding from a major U.S. prime contractor in support of NASA's Space Launch System ("SLS") Control System Electronics. The contract consolidates requirements for high reliability electrical, electronic and electromechanical ("EEE") parts and engineering services. The total contract value is now \$10.3 million and fully funded.

"This most recent award demonstrates that our customer continues to recognize the unique value of Comtech's space level electronic parts supply chain management and engineering services expertise for this critical manned space program," said Fred Kornberg, Chairman of the Board and Chief Executive Officer of Comtech Telecommunications Corp.

The contract was awarded to Comtech's Space & Component Technology ("SCT") division, which specializes in ground station systems and life cycle management, as well as the supply of high reliability microelectronics ("EEE parts") for use in satellite, launch vehicle and manned space applications.

Satellite tracking antennas are manufactured from 30cm to 13m, as well as RF feeds, radomes and carbon fiber reflectors, for LEO, MEO and GEO orbits, for customers worldwide, for all frequency bands. This encompasses all aspects of use including requirements definition and analysis, design, development, and integration of turnkey systems from antenna to data processing, civil works and construction, software, station installation and verification, operations and maintenance, and decommissioning at end of life.
