## TeleCommunication Systems to Feature Total Parts Management and Engineering Services at the 29th National Space Symposium

### **Note: Comtech Acquired TCS on 2/23/2016**

ANNAPOLIS, Md., April 2, 2013 /PRNewswire/ -- TeleCommunication Systems, Inc. (TCS) (NASDAQ: TSYS), a world leader in highly reliable and secure [mobile communication technology](#), today announced that it will be exhibiting at the 29<sup>th</sup> National Space Symposium, taking place April 8 - 11 at The Broadmoor Hotel in Colorado Springs, CO. TCS Space & Component Technology representatives will be on hand at Booth 1205 to discuss the company's engineering support services, including:

- 1 **High-Reliability Parts Procurement** – TCS is able to provide the cost-effective, efficient and on-schedule delivery of products to meet stringent customer expectations and requirements. TCS also specializes in hard-to-find [electrical, electronic and electromechanical \(EEE\) components](#) and can offer support from the preliminary design phase through mission or project completion.
- 1 **Comprehensive EEE Parts and Supply Chain Management** – TCS can provide solutions for a single line item, as well as an entire project parts list or consolidated list across multiple programs and users. TCS is a trusted provider of parts management services for high-reliability programs, worldwide.

TCS' Space & Component Technology division serves the space community with high-reliability components and a broad range of services essential to long-life spacecraft. TCS has performed total parts management for nearly every major space agency worldwide and has supplied components, parts and materials for more than 150 spacecraft manufactured in Europe, Asia and the Americas. TCS also specializes in ultra-rugged [solid-state drives](#) for the most demanding environments, offering both customized and industry-standard configurations for military, aerospace and industrial applications.

### **About TeleCommunication Systems, Inc.**

TeleCommunication Systems, Inc. (TCS) (NASDAQ: TSYS) is a world leader in highly reliable and secure mobile communication technology. TCS infrastructure forms the foundation for market leading solutions in E9-1-1, text messaging, commercial location and deployable wireless communications. TCS is at the forefront of new [mobile cloud computing](#) services providing wireless applications for navigation, hyper-local search, asset tracking, social applications and telematics. Millions of consumers around the world use TCS wireless apps as a fundamental part of their daily lives. Government agencies utilize TCS' cyber security expertise, professional services, and highly secure deployable satellite solutions for mission-critical communications. Headquartered in Annapolis, MD, TCS maintains technical, service and sales offices around the world.
