Comtech Telecommunications Corp. Receives \$3.6 Million Contract Award for High Power Amplifier Systems

MELVILLE, N.Y., Jan 04, 2006 (BUSINESS WIRE) -- Comtech Telecommunications Corp. (Nasdaq: CMTL) announced today that its New York-based subsidiary, Comtech PST Corp., has received a \$3.6 million contract for broadband, solid state, high power RF microwave amplifier systems from a major international customer.

The amplifier systems, which include the latest solid state switching and transistor technology and provide for very broad frequency coverage, will be utilized as part of the customer's communications jamming system.

Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp., said "The award reaffirms the performance, quality and ruggedness of the Comtech PST RF microwave amplifier product line and its latest broadband, high power solid state switching and transistor technology. It is also another example of our amplifier products being provided to a broad customer base for electronic warfare applications. The reliability of our equipment is critical in these communications jamming systems destined to be deployed over challenging terrain."

Comtech PST Corp. (www.comtechpst.com) is a leading independent supplier of broadband high power, high performance RF microwave amplifiers for use in a broad spectrum of applications including high power instrumentation, defense, medical, and satellite communications systems.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company conducts its business through three complementary segments: telecommunications transmission, mobile data communications, and RF microwave amplifiers. The Company offers niche products, systems and services where it believes it has technological, engineering, systems design or other expertise that differentiate its product offerings.

Certain information in this press release contains statements that are forward-looking in nature and involve certain significant risks and uncertainties. Actual results could differ materially from such forward-looking information. The Company's Securities and Exchange Commission filings identify many such risks and uncertainties. Any forward-looking information in this press release is qualified in its entirety by the risks and uncertainties described in such Securities and Exchange Commission filings.
