TeleCommunication Systems Receives \$25 Million in Incremental Funding to Deliver Deployed Communications Systems Support for U.S. Marine Corps

Funding for TCS TotalCom(TM) Integrated Global Support Continues Existing Efforts

Note: Comtech Acquired TCS on 2/23/2016

ANNAPOLIS, MD, Mar 06, 2012 --TeleCommunication Systems, Inc. (TCS) (NASDAQ: TSYS), a world leader in highly reliable and secure [mobile communication technology](#), today announced that it has been awarded \$25 million in incremental funding to provide the U.S. Marine Corps (USMC) with [field support](#) services for its communications infrastructure. The U.S. Army Project Manager for the Warfighter Information Network-Tactical (PM WIN-T) Commercial Satellite Terminal Program (CSTP) is managing these procurements through the Army's \$5 billion World-Wide Satellite Systems (WWSS) contract vehicle.

As part of the TCS TotalCom™ portfolio, Integrated Global Support field service personnel provide technical assistance for deployed communications from core technical control facilities and data/security centers to the network edge at remote operations. This funding continues the work that TCS is already performing under this contract.

"The USMC must have not only the infrastructure capable of providing a significantly higher service experience to all levels of users, but also the people able to maximize and secure the infrastructure while allowing them flexibility to react to constantly changing mission requirements," said Michael Bristol, senior vice president and general manager of government solutions at TCS. "This incremental funding shows that the quality and level of support we have been supplying the USMC is meeting their needs."

TCS has established a proven track record for more than two decades as a trusted provider of communication technology solutions to solve the government's toughest technical challenges, under conditions that demand the highest level of reliability, availability and security. To ensure mission continuity, TCS TotalCom offers deployable, highly [secure communication](#) solutions and complete end-to-end managed services for converged (IP-based) voice, video and data solutions to organizations requiring seamless and secure connectivity between fixed sites and remote operations.

About TeleCommunication Systems, Inc.

TeleCommunication Systems, Inc. (TCS) (NASDAQ: TSYS) is a world leader in highly reliable and secure mobile communication technology. TCS infrastructure forms the foundation for market leading solutions in E9-1-1, text messaging, commercial location and deployable wireless communications. TCS is at the forefront of new mobile cloud computing services providing wireless applications for navigation, hyper-local search, asset tracking, social applications and telematics. Millions of consumers around the world use TCS wireless apps as a fundamental part of their daily lives. Government agencies utilize TCS' cyber security expertise, professional services, and highly secure deployable satellite solutions for mission-critical communications. Headquartered in Annapolis, MD, TCS maintains technical, service and sales offices around the world. To learn more about emerging and innovative wireless technologies, visit www.telecomsys.com.
