Comtech Telecommunications Corp. Received \$3.2 Million Order for Solid-State, High-Power Integrated Microwave Assemblies

MELVILLE, N.Y.--(BUSINESS WIRE)-- January 10, 2018-- Comtech Telecommunications Corp. (Nasdaq:CMTL) announced today that during its second quarter of fiscal 2018, its New York-based subsidiary, Comtech PST Corp., which is part of Comtech's Government Solutions segment, received a \$3.2 million order for solid-state, high-power integrated microwave assemblies from a domestic prime contractor.

This integrated assembly combines our broad frequency range amplifier and control component technologies into a single product for optimal size, weight, and power performance. It is a key element in complex systems enabling improved range, sensitivity and responsiveness.

In commenting on this contract award, Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp. said, "This new product order clearly demonstrates our continued leadership position in providing microwave technology and the ongoing need for our solid-state high-power amplifier and control components that are utilized by major OEMs in both domestic and international markets."

Comtech PST Corp. (www.comtechpst.com) is a leading independent supplier of broadband, high-power, high performance RF microwave amplifiers and control components for use in a broad spectrum of applications including defense, medical, satellite communications systems and instrumentation.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company sells products to a diverse customer base in the global commercial and government communications markets.

Certain information in this press release contains statements that are forward-looking in nature and involve certain significant risks and uncertainties. Actual results could differ materially from such forward-looking information. The Company's Securities and Exchange Commission filings identify many such risks and uncertainties. Any forward-looking information in this press release is qualified in its entirety by the risks and uncertainties described in such Securities and Exchange Commission filings.
