TeleCommunication Systems' VirtuMedix® Connected Health Platform Selected by Doc-Aid™ to Offer 24/7 Access to Secure Telemedicine Services

Texas-Based Urgent Care Clinic Addition to VirtuMedix Customer Portfolio Strengthens Momentum of TCS' Best-In-Class, Virtual Health Services Platform

Note: Comtech Acquired TCS on 2/23/2016

ANNAPOLIS, Md., May 7, 2015 /PRNewswire/ -- TeleCommunication Systems (TCS) (NASDAQ: TSYS), a world leader in secure and highly reliable wireless communication technology, today announced that Doc-Aid™, an on-demand, walk-in clinic offering convenient and affordable access to quality health care, has selected the VirtuMedix® platform to provide secure, HIPAA-compliant telemedicine services to its patients in Texas. With VirtuMedix's cloud-based architecture, Doc-Aid physicians can now remotely serve patients anytime, anywhere and from any device including personal computers, tablets and smartphones. The addition of this urgent care customer expands TCS' VirtuMedix footprint into the southwest region.

News Facts:

- | Based in Laredo, Doc-Aid is a vendor for the Choice Partner Cooperative purchasing network serving over 800 companies.
- | According to the American Academy of Urgent Care Medicine, there are 9,300 urgent care centers in the U.S., and 20,000 physicians who practice urgent care, with both numbers expected to grow.
- | With the integration of the TCS VirtuMedix platform, Doc-Aid can now provide patients with continuous care via 24/7 access to telemedicine services delivered by its licensed providers.
- | VirtuMedix is a cloud-based telemedicine platform that:
 - | Enables continuous care for patients whose conditions or locations make office/hospital visits, inconvenient, impractical, expensive or difficult.
 - | Allows urgent care, physician groups, hospitals and other caregivers to expand their patient reach, increase efficiency and differentiate themselves through superior, convenient care.
 - | Ensures highly reliable security of patient data and platform access through the first and only telemedicine solution audited for cybersecurity.
 - | Supports approximately 1,000 physicians nationwide who rely on VirtuMedix to remotely serve their patients.

Doc-Aid Telemedicine Services Chief Medical Officer Monica Saenz, M.D., said: "As an on-demand, walk-in clinic, we understand the importance of convenience and accessibility for our patients. VirtuMedix enables us to cost-effectively and efficiently provide virtual medical consultations to our patients via an intuitive interface. By deploying the VirtuMedix platform, we are further extending this value with secure, immediate, quality medical care to patients in their homes, workplaces or even when traveling. We believe that our patients will find great value in this service."

TCS Commercial Software Group President Jay Whitehurst said: "Twenty-four hour accessibility is the cornerstone of Doc-Aid's commitment to providing urgent care. With our secure VirtuMedix platform, patients can now conveniently upload data from their activity trackers, smartphones and tablets, or use their mobile devices to interact with Doc-Aid physicians. Adding Doc-Aid to the growing portfolio of VirtuMedix customers is a testament to the versatility of our connected health solution for a variety of medical practices."
