## **Comtech Awarded \$7.0 Million in Contracts for Parts Management Procurement Services by International Space and Communications Customer**

MELVILLE, N.Y.--(BUSINESS WIRE)-- May 29, 2018--Comtech Telecommunications Corp. (Nasdaq:CMTL) announced today that during its third quarter of fiscal 2018, its Command & Control Technologies group, which is part of Comtech's Government Solutions segment, was awarded new contracts in excess of \$7.0 million by an international Space and Communications customer.

Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp., said, "We are extremely pleased with our customer's continued confidence in our supply chain management expertise for these highly-advanced satellites. The fact that we have continued to serve this customer for over 30 years is extremely satisfying and clearly demonstrates the value we bring to our customers."

The Command & Control Technologies group is a leading provider of mission-critical, highly-mobile C4ISR solutions. For over 40 years, the Space & Component Technology Division, now located in Cypress, California, has specialized in supply of high reliability microelectronics, supplying Electrical, Electronic and Electromechanical (EEE) parts for use in satellite and launch vehicle applications. They also provide services encompassing all aspects of ground station life cycle to include: requirements definition and analysis; design, development and integration of turnkey systems from antenna to data processing; civil works and construction; station installation and verification; operations and maintenance; and decommissioning at end of life. A line of XY satellite tracking antennas, radomes and carbon fiber reflectors for LEO, MEO and GEO orbits is also supplied.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company sells products to a diverse customer base in the global commercial and government communications markets.

Certain information in this press release contains statements that are forward-looking in nature and involve certain significant risks and uncertainties. Actual results could differ materially from such forward-looking information. The Company's Securities and Exchange Commission filings identify many such risks and uncertainties. Any forward-looking information in this press release is qualified in its entirety by the risks and uncertainties described in such Securities and Exchange Commission filings.
